Environment

Federal Public Service Health, Food Chain Safety and Environment - https://www.health.belgium.be/en

BeOH
BELGIAN ONE HEALTH

Vision

Bringing together Belgian scientists, practitioners, citizens, decision-makers, and policy-makers to enable and stimulate sharing knowledge in support of sustainable health for humans, animals, plants, and the environment, joining the global effort and contributing to the pursuit of a One Health agenda in Belgium.

Missions

- We offer a multidisciplinary platform for all relevant stakeholders to nurture and strengthen the One Health approach in research, policy, and decision-making.
- We foster activities, collaboration, and information sharing between all actors and sectors to identify and cover One Health knowledge gaps.
- We leverage communication and enhance the visibility of knowledge and activities to raise awareness on the added value of the One Health approach.
