International Networks

Una Europa One Health

One Health is one of Una Europa's strategic focus areas.

Experts from 11 universities collaborate to advance research, education and societal impact across disciplines and borders.

Education Programmes

Doctoral Programme

Integrating field-specific doctoral studies into a unified One Health Doctoral Programme.

Master's Programme

Preparing future One Health professionals through cross-disciplinary teaching and real-world projects.

Una Europa Microcredential

One Health in Governance
Translating One Health concepts into policy and practice through lifelong learning.
