One Health Finland ry (OHF)

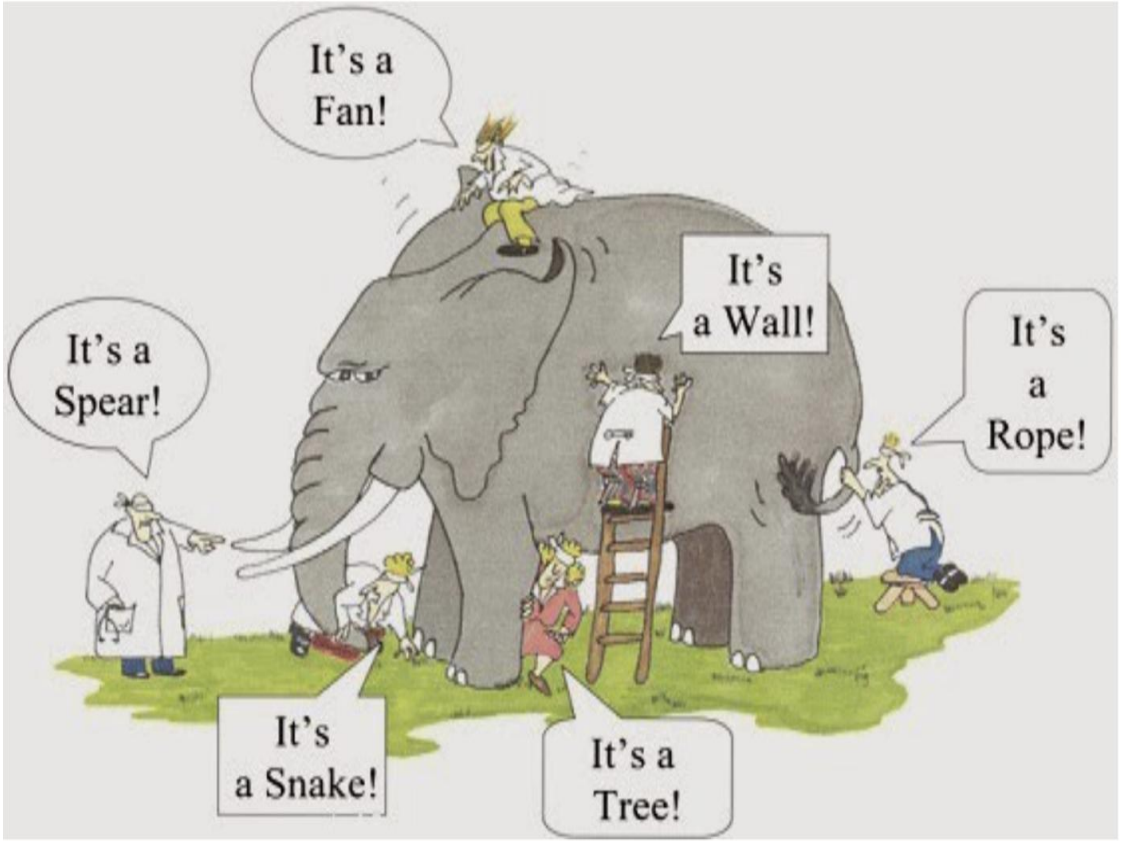

Established in 2016

Non-profit association run by volunteers

What we do (have done):

- **Raise awareness of One Health**
- **Increase interdisciplinary collaboration**
- **Organize events**

Holism

We have specialized in facilitating workshops that bring together professionals from different disciplines (OH-smart toolkit:

Vesterinen et al. 2019: Strengthening multi-sectoral collaboration on critical health issues: One Health Systems Mapping and Analysis Resource Toolkit (OH-SMART) for operationalizing One Health. PLOS ONE 14(7): e0219197. https://doi.org/10.1371/journal.pone.0219197)

In 2023 we got funding from the Finnish innovation fund Sitra and among many other things during that year we produced this publication.

Currently we don’t have any projects and we have focussed on “staying alive”

KIITOS!
